Profile 2018

Fort Frye Local School District
Fort Frye High School

Founded 1956

First Graduating Class 1958

The Fort Frye Community

Spanning 165 square miles, in the North Central part of Washington County and Center Township of Morgan County, Ohio, Fort Frye Local School District serves the educational needs of the villages of Beverly, Lowell, Lower Salem and the surrounding rural areas. This geographical area is recognized as a part of Appalachia; many of our students are first generation college attendees. The impact of the continuing global economic downturn is evidenced by the free and reduced percentage of our student body reaching above 50%. Industry, agriculture, construction, and tourism comprise the economic base. Despite the economic struggles the community faces, our students attained 95.1% attendance district wide (2017) and a graduation rate of 96%. Our student population is 99% Caucasian.

Grading Scale Accumulative GPA Ranking Calculation

All students and courses are included in the unweighted accumulative grade point average, which is computed at the end of each semester, using the below listed quality points.
