

August 5, 2014

Dear Counselor,

As you know the ACT is right around the corner, and I am sure that your students are getting filled with anxiety just thinking about what lies ahead for them on this critical test.

ACT date: 9/13/2014, 10/25/14

Sylvan Learning is a leader in ACT preparation, and we have proven techniques that will help students feel more confident and relaxed going into this test, allowing them to score their best. We would like to be able to continue to partner with you to bring this expertise to your students. We are again able to offer a **free practice ACT** that we feel will be extremely valuable for your students.

To give your students the advantage of this free service, simply have parents contact the center at **304-295-5144**. The only information we need to schedule the free practice test is the student's name, date of birth, graduation date, and an email address. The student will then have 30 days to take the practice test and receive their results. I look forward to helping you provide your students the confidence needed to meet their goals.

Sincerely,

A handwritten signature in cursive script that reads "Diana James".

Diana James
Center Director of Education
