

Dear Student & Parent/Guardian,

We are pleased to present a revised registration booklet to aid you and your son/daughter in drafting his/her course requests for the 2016-2017 school year.

This course registration booklet will be available in hard copy in each classroom and office at FFHS. It will also be linked online via the guidance website. To preserve the mandatory state testing environment, Mrs. Shultz will NOT call students out of core classes. Rather, she will make herself available in the study hall room for two plus weeks starting March 8 through spring break. Students in study hall may interact with her any of these days. Students who do NOT have a study hall may acquire a pass and visit her from a NON-CORE class. Parents wishing to interact with Mrs. Shultz may call to make a separate appointment or email questions regarding scheduling.

Selected courses have prerequisites that must be met prior to the student registering. Please review all academic requirements prior to selecting these courses. Students who do not meet these standards need to choose another class. Students seeking college courses must meet college entrance requirements set by the college granting credit. Those requirements should be available during the College Credit Plus (formerly PSEOP) meeting held, March 17, 2016.

The administration and faculty of Fort Frye High School believe strongly that one of our major responsibilities is to help students prepare for their futures by encouraging and guiding them toward making sound decisions in regard to their educational and career choices. The decisions your son/daughter make now in regards to his/her educational plan can influence the paths that are open to him/her at the time he/she graduates from high school.

We encourage you to work very closely with your son/daughter during the scheduling process in order to map out a tentative course plan for his/her years at Fort Frye High School. By working together, we hope to provide for your son/daughter the high school background he/she needs in order to pursue his/her goals.

Sincerely,

Mary Beth Shultz
School Counselor

Andy Schob
Principal

Please Note: These are proposed courses for the 2016-2017 school year. Actual courses offered will depend on staffing numbers and student enrollment.

The Fort Frye Board of Education provides equal educational opportunities without regard to race, color, national origin, sex or disability (Title VI, VII, IX and Section 504).

**Fort Frye High School
Registration Booklet 2016-2017**

Scheduling Requirements

- Maximum credit course load is **8** periods [this could mean 9+ credits for students in College Credit Plus (CCP)]
- Minimum credit course load is: **7** periods for 9 & 10; **6** for 11 & 12
- No more than two study halls (usually only one for grades 7-10)

Schedule Changes

- A student may add/drop a class not required for graduation during the first five days of a semester. Parent permission to change schedules is generally required. The guidance office must approve changes. Period changes are not permitted for the same course.
- An add/drop/or change is allowed only within the 1st five (5) weeks of the course. After five weeks, if the teacher, counselor, parent, and student all agree that the course is not appropriate, one of the parties listed above may notify the Guidance Office and make a request to change the course.
- If a course is dropped after the fifth week, the student may receive an “F” for the semester.

Guide for Classification

Freshman promoted from 8 th grade	Sophomore 5 credits	Junior 10 credits	Senior 15 credits
---	------------------------	----------------------	----------------------

Special Education and Inclusion Services

The Fort Frye special education department provides every opportunity for students to reach their maximum potential.

Special education services are available for students who are eligible through the decision of a Multifactorial Evaluation team. If you are having difficulty, please see a teacher, the guidance counselor, or the principal for intervention assistance.

Intervention Specialists serve a variety of students. Intervention services may be available in the following content areas: English, Math, Science, and Social Studies. Students are scheduled in one of three ways;

- Self-contained English and Math classes are offered in the special education resource room and are taught by a highly qualified intervention specialist. Class sizes are kept small to facilitate instruction and instruction is geared toward a student’s individualized needs as identified in the Individualized Education Plan (IEP).
- Inclusion classes are offered in all subjects as stated above. Intervention specialists are paired with the regular classroom teacher to provide instruction and assistance for all students. Instruction may be delivered through small group instruction, cooperative learning, and/or one-to-one assistance.

- General education classes are offered with the support of Intervention Specialists who will be available to help meet the requirements of students with special learning needs.

A+ Online Courses

A+ is an online course option currently being used for credit recovery and elective expansion. All A+ options require the authorization of the Building Principal and the Guidance Counselor. If a course is available on campus, then students currently on campus will be enrolled in that course when possible.

College Credit Plus (CCP)

College Credit Plus replaces the PSEO and Dual Enrollment Programs. CCP can help students earn college and high school credits at the same time by taking college courses from community colleges or universities. Details are available at the Ohio Department of Education Webpage. This can be linked from the FFHS Guidance Webpage. (<http://www.fortfrye.k12.oh.us/guidance/7-12.php>).

Students must meet the college's eligibility criteria for the CCP program. Students and parents are encouraged to attend a state mandated meeting on March 17, 2016 @ 6:00pm in the High School Library and file a letter of intent to participate in CCP courses with the Guidance Office by April 1, 2016.

Credit Flex

Credit Flexibility is an option available to students. Students in grades eight through twelve may "test out" or create their own "flex plan" to receive credit for a course. In order to participate, students must turn in a completed Fort Frye High School Flex Plan Application, meet established course prerequisites, and possess sufficient skills and abilities necessary for independent work. Applications are available in the high school office.

Credit Flexibility is an option available to all students; however, it is not intended to be used for credit recovery. Also, potential NCAA athletes should carefully review course restrictions which may include Credit Flex courses. Interested students and parents may wish to make an appointment with the building principal to discuss this option.

Class of 2017---OGT (Subject to change based on future legislative action)

The high school has aligned the 7-12 curriculums to meet the challenges of the Ohio Graduation Test. This test will be administered in the spring of the tenth grade year. In order to graduate and to receive a high school diploma students must pass all five parts: writing, reading, math, citizenship, and science. Students may graduate and receive a diploma without passing all five tests of the OGT if they meet the following requirements:

- Pass four of the five tests and have missed passing the fifth test by no more than 10 points
- Maintain a 97 percent attendance rate through all four years of high school
- Must not have had an expulsion in high school
- Have a grade point average of at least 2.5 out of 4.0 in the courses of the subject area missed and have completed the curriculum requirement in the subject area missed
- Have participated in any intervention programs offered by the school
- Must have had a 97 percent attendance rate in any program offered outside the normal school day
- Obtain letters of recommendation from each teacher in the subject area not yet passed.

Class of 2018 and Beyond

Assessments Downloaded 10/28/15 from <http://education.ohio.gov/Topics/Ohio-Graduation-Requirements/Graduation-Requirements-2018-and-Beyond>

Meet one of the three criteria.

1. **Ohio's State Tests** Students earn a cumulative passing score of 18 points, using seven end-of-course state tests. To ensure students are well rounded, they must earn a minimum of four points in math, four points in English and six points across science and social studies.

End-of-course exams are:

- Algebra I and geometry or integrated math I and II
- Biology (or physical science for class of 2018 only)
- American history and American government
- English I and English II

Students can earn from 1-5 points for each exam, based on their performance.

5 - Advanced 4 - Accelerated 3 - Proficient 2 - Basic 1 - Limited

Students studying Advanced Placement (AP) or International Baccalaureate (IB) courses in biology, American history or American government may take and substitute test scores for end-of-course state exams to avoid double testing. Students also may substitute grades from College Credit Plus courses in these subjects for end-of-course state exams.

Exam Retakes

Students that score below proficient on an exam may retake it after they receive some extra help on the material. Students that score proficient or higher on an end of course exam can retake exams only if, once they take all the exams, they have not met the minimum graduation points to graduate. In this case, a student can retake any exam after receiving some extra help on

the material. The same rules apply to substitute exams, which may be used interchangeably with approved tests

2. **Industry credential and workforce readiness** Students earn 12 points through a State Board of Education-approved, **industry-recognized credential or group of credentials** in a single career field and achieve a **workforce readiness score** on the **WorkKeys** assessment. The state of Ohio will pay one time for those who take the WorkKeys assessment.
3. **College admission test** Students earn “remediation-free” scores in English language arts and mathematics on a nationally recognized college admission exam. The state of Ohio will pay one time for all 11th grade students in the classes of 2018 and beyond to take the exam free of charge.

DIPLOMAS WITH HONORS CRITERIA

Students need to fulfill all but one of the applicable criteria for the Diploma with Honors

Subject	Academic Diploma with Honors FFHS/PSEO/CCP	Career-Technical Diploma with Honors for WCCC
English	4 units	4 units
Mathematics	4 units, including Algebra I, Geometry, Algebra II or the equivalent and another higher level course or a four-year sequence of courses that contain equivalent content	4 units, including Algebra I, Geometry, Algebra II or the equivalent and another higher level course or a four-year sequence of courses that contain equivalent content
Science	4 units, including physics and chemistry	4 units, including two units of advanced science ****
Social Studies	4 units	4 units
Foreign Language	3 units (must include no less than 2 units for which credit is sought), i.e., 3 units of one language or 2 units each of two languages	N/A
Fine Arts	1 unit	N/A
Electives	N/A	4 units of Career-Technical minimum. Program must lead to an industry recognized credential, apprenticeship, or be part of an articulated career pathway which can lead to post-secondary credit
Grade Point Average	3.5 on a 4.0 scale	3.5 on a 4.0 scale
ACT/SAT Score [excluding scores from the writing sections]*	27 ACT / 1210 SAT	27 ACT / 1210 SAT
Additional Assessment	N/A	Achieve proficiency benchmark established for appropriate Ohio Career-Technical Competency Assessment or equivalent

Diploma with Honors requirements pre-supposes the completion of all high school diploma requirements in the Ohio Revised Code including:

½ unit physical education** ½ unit health ½ unit in American history ½ unit in government

* Writing sections of either standardized test should not be included in the calculation of this score.

** SB 311 allows school districts to adopt a policy exempting students who participate in interscholastic athletics, marching band or cheerleading for two full seasons or two years of JROTC from the physical education requirement.

**** Advanced science refers to courses in the Ohio Core that are inquiry-based with laboratory experiences and align with the 11/12th grade standards (or above) or with an AP science course, or with the new high school syllabi, or with an entry-level college course (clearly preparing students for a college freshman-level science class, such as anatomy, botany, or astronomy), or contain material above the current OGT level.

Graduation Requirement Summary

Subject	2017	2018 & Beyond
Financial/ Career	Students who move into FFHS school district after 10 th grade may meet the Financial Literacy requirement through an alternative curriculum; however, it would be necessary to substitute an additional .5 elective credit.	All students must receive instruction in economics and financial literacy during Grades 9-12 and must complete at least two semesters of fine arts taken any time in Grades 7-12. Students following a career-technical pathway are exempted from the fine arts requirement.
Math	Mathematics units must include 1 unit of Algebra I, 1 unit of Geometry and 1 unit of Algebra II or the equivalent of Algebra II.	The State Board of Education may decide to include an algebra II end-of-course examination in place of the algebra I end of course exam beginning for students entering ninth grade on or after July 1, 2016.
Science	Science units must include credits which are lab based as follows: 1 unit of physical sciences, 1 unit of life sciences and 1 unit advanced study in one or more of the following sciences: chemistry, physics, or other physical science; advanced biology or other life science; astronomy, physical geology, or other earth or space sciences.	Science units must include one unit of physical sciences, one unit of life sciences and one unit advanced study in one or more of the following sciences: chemistry, physics or other physical science; advanced biology or other life science; astronomy, physical geology or other earth or space science. Students on a Student Success Plan may be exempted from advanced study in science.
Social Studies	Social studies units must include 1 unit of social studies elective, 1 unit of American History, and 1 unit of American Government.	Social studies units must include ½ unit of American history and ½ unit of American government.
Electives	Electives units must include one or any combination of foreign language, fine arts, business, career-technical education, family and consumer sciences, technology, agricultural education or English language arts, mathematics, science or social studies courses not otherwise required.	Electives units must include one or any combination of foreign language, fine arts, business, career-technical education, family and consumer sciences, technology, agricultural education or English language arts, mathematics, science or social studies courses not otherwise required.
Physical Education	HS Physical Education is required for two semesters during 8 th grade. If a student moves into the FFHS school district after 8 th grade, the student may be scheduled into HS Physical Education at that time, or may choose to have their participation in interscholastic athletics, band or cheerleading for two full seasons meet this requirement. Per state law, the two full seasons must be completed in the same activity. If this option is chosen elective requirements would increase from 4.5 to 5.0 units.	School districts may adopt a policy that would exempt students who participate in interscholastic athletics, marching band or cheerleading for two full seasons or an approved Junior Reserve Officer Training Corps (JROTC) program for two years from the physical education requirement. Students must take another course, which cannot be a physical education course, of at least 60 contact hours.

GRADUATING CLASSES OF 2017 and Beyond

Ohio Core Graduation Requirements for Fort Frye High School

English Language Arts	4.0	units
Health	.5	unit
Mathematics	4.0	units #
Physical Education	.5	unit #
Science	3.0	unit #

	<hr/>	
	21.0	units

#Refer to chart page 11

All seniors must satisfactorily complete the seniors in the Job Market Program.

The Class of 2017 is required to pass all five sections; writing, reading, math, citizenship, and science of the Ohio Graduation Test.

The Classes of 2018 and beyond must meet the new assessment guidelines. This legislation did NOT change the current courses or number of course credits that students must complete to be eligible for graduation.

ORC mandates but ODE has not posted language stating that with the class of 2021 .5 unit of world studies will be required this is not yet reflected in the above standards though this requirement is already met through 9th grade world history taught at FFHS.

Alternative Gradation Requirement for the Ohio Core Graduation Requirements at Fort Frye High (Opt Out)

This plan is formally known as the Ohio Curriculum Choice and detailed information may be found at <http://education.ohio.gov/getattachment/Topics/Ohio-s-New-Learning-Standards/Ohios-New-Learning-Standards/Ohio-Curriculum-Choices/Curriculum-Choice-Family-Fact-Sheet.pdf.aspx>

Procedures have been developed. Contact the school counselor to request a meeting to discuss this “opt out” provision. To earn a diploma without completing the core curriculum for the Classes of 2014 to 2019, the student’s family, including child, must:

- Meet with school to have the Curriculum Choice provision fully explained;
- Understand any additional requirements the school district has for this option;
- Develop and complete a Student Success Plan in the third year of high school. One exception is students who transfer or enroll in an Ohio high school after their third year of high school may also select Curriculum Choice as a part of the placement process.
- Sign a written consent stating the Curriculum Choice, its consequences and added district requirements is understood by all. The school will keep the consent in the student’s file.

Graduating Classes up to 2017 “Opt Out”

English	4.0	
Math	3.0	
Social Studies	3.0	
<small>Social Studies Elective (1.0), U.S. Studies (1.0), American Government (1.0)</small>

Elective	Planning/Health
Elective/Study Hall	Elective/Study Hall
Elective/Study Hall	Elective/Study Hall

State mandated tests will continue at WCCC. Physical Education and Financial and Career Planning courses are not taught at WCCC. Students must pass these courses at Fort Frye High School. Scheduling may not be possible at WCCC to make-up required courses for graduation which were failed in 9th or 10th grade. Credit recovery/make-up credit options for required courses for graduation are provided via on-line instruction on the WCCC campus and through summer courses at Fort Frye High School.

Enrollment Guidelines for WCCC

To be admitted to a technical program at the Career Center, a **junior** must have earned at least six credits in the state required core areas. These must include at least one credit in each of the following: English, Math, Science and Social Studies. A senior must have earned a minimum of twelve credits, ten in the required core areas. At least two of the credits must be in English and math, one in science, one in social studies, and one in PE/health. Early graduation is not available at the Washington County Career Center.

Rising juniors and seniors may elect to apply to the Washington County Career Center at any time prior to the opening of school as space permits. Students will be placed on a waiting list if the course is filled to capacity. There is traditionally a priority application deadline early to mid-March.

Washington County Career Center Technology Programs

Auto Collision/Custom Paint & Graphics	Auto Mechanics
Auto Mechanics	Computer Graphics
Building Technology/Carpentry	Cosmetology

Health Information Technology	Masonry
Landscape Construction/Turf Management	*Medical College Prep
Patient Health Care	*Sport Medicine & Exercise Science
Welding	

* Entrance requirements: C or better in Biology & Algebra I; GPA of 2.5 or above

Student Athletes Planning to Play a College Sport--NCAA or NAIA

(More information and a quick link to both NCAA & NAIA is available on the HS Guidance Page under Student Athletes)

Student Athletes and their parents are responsible for reviewing and knowing the initial eligibility requirements to play a college sport. Therefore, an individual conference with the school counselor, parent and student is highly recommended. This should be done when the student is scheduling for grades 9 thru 12. Keep in mind that students will officially register on line with NCAA/NAIA *by the end of the athlete's junior year*, and a fee will be charged.

Fee Waivers---You are eligible for a waiver of the registration fee only if you have received a fee waiver for the ACT/SAT fee. You must have an authorized high school official submit your fee waiver documentation on line. If you have not yet been granted a fee waiver by ACT/SAT, you are not yet eligible for the registration fee. Contact the guidance department for more information. Students need to complete registration at the end of their junior year or beginning of their senior year.

All ACT/SAT test scores must be submitted to NCAA/NAIA directly from the testing company. The code for NCAA is "9999" and for NAIA "9876" will send your score directly to the Eligibility Centers and should be requested at the time the student registers for the test. The student's score should still be sent to Fort Frye High School with a code of "360-470."

NCAA Athletic Eligibility Information

Go to NCAA Eligibility Center on line at

http://web3.ncaa.org/ECWR2/NCAA_EMS/NCAA.jsp click - Enter as a Student Athlete. NOTE: Division III Eligibility Standards - contact the institution regarding its academic and amateurism policies. GPA requirements and ACT Test Score requirements are found on line.

NAIA ATHLETIC ELIGIBILITY INFORMATION

May be found on the internet at: <http://www.playnaia.org/> click on - Register to Play or for more information click U.S. Students>Entering Freshmen. GPA requirements and ACT Test Score requirements are found on line.

Career Technical Department and Agriculture Education

FFA Dues will be \$20.00

Agriculture, Food and Natural Resources (2 semesters)

Course # 102 103 Credit .5 per semester Grades 8-12 Fee: \$10.00

This is the first course in the Agricultural and Environmental Systems career field. It introduces students to the pathways that are offered in the Agricultural and Environmental Systems career field. As such, students will obtain fundamental knowledge and skills in food science, natural resource management, animal science & management, plant & horticultural science, power technology and biotechnology. Students will be introduced to the FFA organization and begin development of their leadership ability. Recommended as a first year Ag class.

Animal and Plant Science (2 semesters)

Course # 104 105 Credit .5 per semester Fee: \$10.00

Students will apply knowledge of animal and plant science to the agriculture industry. They will be introduced to the value of production animals relative to the agricultural marketplace. Students will engage in animal classification and selection, body systems, along with animal welfare and behavior in relation to the production of animals. Students will learn principles of plant anatomy and physiology, and the role of nutrition, deficiencies and growing environment on plant production. Throughout the course, business principles and professional skills will be examined. Recommended as a second year Ag class.

Animal Health (2 semesters)

Course # 146 147 Credit .5 per semester Fee: \$10.00

Students will examine causes, symptoms, and treatment of common diseases with emphasis on developing preventative health management plans. Topics will include the study of pathogens, and classifying types of diseases and disorders. Students will perform animal health assessments and compare to standard characteristics. Throughout the course, students will utilize principles of technology to manage information systems, and research issues affecting the industry. Recommended Pre-requisite: Animal and Plant Science or livestock experience.

Livestock Selection, Nutrition and Management (2 semesters)

Course #140 141 Credit .5 per semester Fee: \$10.00

Students will identify and apply principles and routine husbandry practices to production animal populations. Topics will include principles of nutrition, feed utilization, animal welfare, selection and management of facilities and herd populations. Students will apply knowledge of production animal care to enhance animal growth, selection of breeding stock, and management practices. Throughout the course, students will develop management plans reflecting practices for care and legal compliance.

Environmental Science for Agriculture and Natural Resources (2 semesters)

Course #148 149 Credit .5 per semester Fee: \$10.00

Students will study relationships between organisms and their environment. Principles of biogeochemical cycles, air-water-land relationships, non-point pollution, and wetlands will be applied. Students will examine fundamentals of resource development, agriculture sustainability, energy needs and pollution control. They will analyze and interpret data gathered from studies on the ecosystem. Throughout this course, students will develop responses to environmental problems and develop management strategies for responsible conservation and resource development.

Science and Technology of Food (2 semesters)

Course # 152 153 Credit .5 per semester Grades 8-12 Fee: \$15.00

This first course in the pathway examines the research, marketing, processing and packaging techniques applied to the development of food products. Students will examine principles of food preservation techniques and determine correlations to food sensory, shelf life and food stability. Students will examine and develop food safety, sanitation, and quality assurance protocol. Government regulations and food legislation will be examined and the implications to food science and technology will be identified.

Agricultural and Industrial Power (2 semesters)

Course # 112 113 Credit .5 per semester Grades 8-12 Fee: \$15.00

The Agricultural and Industrial Power course will introduce students to the breadth of the Agricultural and Industrial Power Technology pathway. Students will learn the principles of agricultural and industrial power technology equipment systems including electronic, electrical, engines, fuel, hydraulics, and power trains. Additionally, students will learn to operate and maintain agricultural and industrial equipment.

Computer Technology Department

A home computer is not necessary to take these courses. All class sizes are limited to 30 due to availability of equipment. **Computer Course Fee: \$15.00**

Computer Applications I (1 semester)

Course # 300 Credit .5 Grades 8-12

Students will learn the software Microsoft Word, which is part of the Microsoft Office package. They will learn word processing commands to create letters, reports, tables, and graphics. All assignments will be completed in class and there is no homework.

Computer Essentials (1 semester)

Course # 305 Credit .5

This class will show you how to do what college instructors expect you to know. This course will have five major components: formatting documents, spreadsheets, databases, presentations, and using the internet. Formatting documents will include typing papers using both MLA and APA styles, using proper layout, and how to cite sources correctly. Students will create brochures, flyers, and newsletters that are appealing. There will be an introduction to spreadsheets and charts, using formulas and functions, and how to embed them into research papers. Beginning databases and their uses will be included. Students will also be taught how to create a presentation using correct and easiest techniques, as well as how to efficiently locate the information they need on the web.

CCP or HS MS Word (1 semester)

Course # DECTCH1801 Credit 1 @ FFHS & 3 sem. Hours @WSCC

In this course students will learn the basics of creating and editing a basic word processing document using Microsoft Word. Techniques covered include page formatting such as setting margins and controlling layout, formatting text with color and font choice, paragraph formatting with spacing and justification, and the use of graphics such as pictures and clipart. Students will then work on more advanced elements of Microsoft Word. The students will edit more complex documents working with graphics, building blocks, using the merge feature, working with styles, templates and references. The students will also be introduced to integrating Word with other programs, using advanced graphic commands, building forms, and customizing Word.

CCP or HS MS Excel (1 semester)

Course # DECTCH1804 or CTC1804 Credit 1 @ FFHS & 3 Sem. Hours @ WSCC or .5 FFHS

This course will give the student the necessary skill to create, edit, format, and print a basic spreadsheet using Microsoft Excel. Basic and complex formulas will be used as well as function formulas. The students will learn how to manage workbook data and data using tables, how to analyze table data, automating worksheet tasks, create charts from spreadsheet data and how to enhance the charts and use What-if analysis.

Hypermedia (1 semester)

Course # 320 Credit .5 Grades 11-12 Prerequisite: Teacher Permission
Students will learn the software program, PowerPoint, which is a part of the Microsoft Office Package. They will create multimedia presentations that include text, graphics, animation, and transitions. Students will use a scanner, digital camera, and graphics program as they incorporate the graphics into the PowerPoint presentation. All assignments will be completed in class and there is no homework.

Computer Graphics (1 semester)

Course # 340 Credit .5 Grades 11-12 Prerequisite: Teacher Permission
Students will learn the image editing software, PhotoShop Elements. Activities will include how to capture images from digital cameras, scanners, and CDs as well as how to correct photos and use editing tools. All assignments will be completed in class and there is no homework.

Web Publishing & Design (1 semester)

Course # 332 Credit .5 Grades 11-12 Prerequisite: Teacher Permission
Students will learn about the emerging Web Publishing industry, background and history of the Internet, and navigation techniques. Students will learn about the required HTML tags, attributes, and elements found in standard HTML programming. Students will create their own web pages where they will also learn how to properly add text, links, images, tables, backgrounds and sound to their Web Pages.

Education Department

CCP or HS Introduction to Teaching (1 semester)

Course # DEEDUC1000 or EDUC1000 Credit 1 @ FFHS & 3 sem hrs @ WSCC or .5 FFHS Grades 11-12

Introduction to the teaching profession and college education program. Study revolves around six themes: standards-based education, professionalization, diversity, democratic issues, curriculum and instruction, and legal and organizational issues. These themes will be examined through selected readings and field experiences. This CCP class has the potential to be offered as distance learning via Polycom with collaborating Ohio schools.

CCP or HS Introduction to Instructional Planning (1 semester)

Course # DEEDUC 1400 or EDUC1400 Credit .666 @ FFHS & 2 sem hrs @ WSCC or .333 credit FFHS Grades 11-12 Prerequisite: EDUC 1000 and should be taken with Field Work

This course familiarizes preservice teachers with a systematic approach to the development of effective lesson plans. Covers identification of instructional goals and objectives; selection of instructional strategies and activities; consideration of appropriate classroom management systems; creating and using assessment tools; and evaluation and revision of plans. Students develop a variety of lesson plans and learn to incorporate variations to accommodate diverse learners.

CCP or HS Early, Middle, or Young Adult Seminar and Field Work (1 semester)

Course # DEEDUC 1510, 1530, or 1550 Credit .333 @ FFHS & 1 sem hr @ WSCC or .167 credit FFHS Grades 11-2 Should be taken with Intro to Intr Plan Classroom observation for students preparing to enter the teaching profession. Students must attend a seminar on campus and complete 40 hours of field work. Students must clear an FBI/BCI background check to participate. Students gain knowledge and experience necessary for initial understanding of concepts and practices presented in education courses.

Credit 1 @ FFHS & 3 sem hrs @ WSCC or .5 FFHS

English Department
(NCAA approved)

College Prep English 9 (2 semesters)

Course # 405 406 Credit .5 per semester Grade 9

This freshman course includes writing various types of compositions with integrated usage instruction and language review as necessary; an emphasis on the short story form; consideration also of poetry, essays, dramas, and novels. Listening, discussion, critical thinking, and viewing are emphasized. Library skills are integrated into the course with research and public speaking skills practiced throughout the year. This course is designed to be an introduction for college bound students to the demands of higher level English courses.

College Prep English 10 (2 semesters)

Course # 415 416 Credit .5 per semester Grade 10

This course is designed to foster the development of language skills including reading, writing, and speaking for sophomores preparing to meet the academic demands of college. Organized around a series of research projects, reading includes fiction and nonfiction—essays, articles, stories, drama, novels, and other books—at a level of sophistication appropriate to the tenth grade. Critical appreciation of various texts is both developed through and demonstrated by student participation in discussion. Students should expect to write regularly, crafting essays appropriate to the given content, audience, and purpose.

College Prep American Lit and Composition (2 semesters)

Course # 425 426 Credit .5 per semester Grade 11 or 12

This course is designed to foster the development of language skills including reading, writing, and speaking. Focusing primarily on American Literature, reading assignments include fiction and nonfiction—essays, articles, stories, drama, novels, and other books—at a level of sophistication appropriate for juniors preparing to meet the academic demands of college. As they read, students will experiment with a full range of close reading strategies: they will annotate texts, keep dialectical journals, develop effective graphic organizers, and in the process, discover their personal best reading practices. Research and discussion are both integral pieces of this course, as is regularly assigned writing.

College Prep British Lit and Composition (2 semesters)

Course # 440 441 Credit .5 per semester Grade 11 or 12

This course is designed to prepare the student for college English classes. An emphasis will be placed not only on literature at a college level, but there will be a strong concentration on research, writing, and grammar skills. Grading will be strict, so that the student is well prepared to enter the college atmosphere.

CCP Composition I (1 semester)

Course # DEENGL1510 Credit 1 @ FFHS & 3 sem hrs @ WSCC Grade 11

Develop, compose, and revise expository essays, which center on a definite thesis statement. The course covers rhetorical modes such as example, process

analysis, definition and comparison/contrast. The course also covers planning, drafting, revision skills.

CCP Composition II (1 semester)

Course # DEENGL1520 Credit 1 @ FFHS & 3 sem hrs @ WSCC Grade 12
Continues improvement of writing skills. Argumentative and expository papers created by evaluating information from multiple perspectives and drawing reasonable conclusions for a final research writing.

English Elective

Drama (2 semesters) *Teacher approval and/or audition may be required.*

Course # 240 241 Credit .5 per semester

This course is a study of basic theatre skills, including acting and production techniques. Some written work is involved, but primarily done in a lab situation in class. Student must be willing to “get up in front of people”. Students will have the opportunity to participate in all theatre productions in some capacity, (cast or crew). Field trips to various area productions may be included. Students will work towards membership in the International Thespian Society. This class does involve time commitment outside of class. Extra rehearsals are a requirement.

Online CCP Speech (1 semester)

Course # DESPCH1510 Credit 1 @ FFHS & 3 sem hrs @ WSCC

This online DE course introduces students to both the general principles of communication and the specific process involved in the preparation and presentation of informative and persuasive one-to-many messages. Class will be taken online and monitored by an FFHS teacher.

CCP or HS Seniors in the Job Market (1 semester)

Course # DEBERS1060 Credit 1 @ FFHS & 3 sem hrs @ WSCC Grade 12

Prepares students for the world of work and future career plans. Students develop a career plan, practice job search skills and resume writing, complete job applications, learn interview strategies, and job market research. Covers global work issues, workplace diversity, personal budgeting, and continuing education opportunities.

Financial and Career Planning

Financial and Career Planning (1 semester)

Course # 516 Credit .5 Grade 10 Fee: \$10.00

Students will explore career choices based on their interests, talents, and goals. This course will provide understanding of the concepts and principles involved in managing one's personal finances. Banking, budgeting, credit, debt, insurance, investing, and many other topics will be covered. **This course is required for graduation and is scheduled during the sophomore year.**

Fine Arts Department

Art Department

Art class sizes are limited to 28 students.

Art I (2 semesters)

Course # 200 201 Credit .5 per semester Grades 8-12 Fee \$30.00

Art I is suggested for first year high school art students. This course is dedicated to making art a highly personal experience. Emphasis is on all types of painting, drawing, art history, appreciation, and an introduction to sculpture.

Art II (2 semesters)

Course # 210 211 Credit .5 per semester Grades 10-12 Fee \$30.00

Prerequisite: Art I

Environmental Art emphasizes an awareness of the student's ability to plan and shape their own environment through the study of interior design, architecture, perspective, model-building, and experimentation with other forms of design and space. The last 9-weeks is an individualized study of areas of art not previously covered in class work. An introduction of photo shop applications is included.

Art III (2 semesters) Scheduled for 2016-2017

Course # 220 221 Credit .5 per semester Grades 10-12 Fee \$30.00

Prerequisite: Art I

The World of Art is suggested for, but not limited to juniors and seniors. This course is an exploration of the broad applications of art in the world in which we live. Emphasis is placed upon practical applications of art in calligraphy, illustration, graphic art and design, sculpture, advertising and stained glass.

Art IV (2 semesters) Scheduled for 2017-2018

Course # 230 231 Credit .5 per semester Grades 10-12 Fee \$30.00

Prerequisite: Art I

Art Careers is offered on a rotating basis, opposite Art III and suggested for but, not limited to juniors and seniors. This course is an in-depth exploration of several art-related career fields; in particular, cartooning, painting, sculpture, textiles, and portraits. There is a high degree of individualization of study. There is an emphasis on production and planning of a media presentation.

Music Department

Marching Band is an extracurricular activity that takes place after school hours. Marching Band is not for music credit. Contact the Marching Band Director for information.

HS Concert Band (2 semesters)

Course # 252 253 Credit .5 per semester

Band is for students who have progressed through an elementary and junior high band program. It is also open to students that have never played in an organized group or have been taking lessons privately outside of school on a concert band type of instrument. The high school concert band will be required to attend several performances throughout the school year. There will be three (3) major concerts during the year; Fall, Christmas, and Spring. There will also be performances during the Four-Chaplain's Sunday, and Commencement exercises at the end of the year. Opportunities are available for participation in District IX activities and honor bands. Self-discipline, cooperation, and musical awareness are emphasized.

Jazz Singers (2 semesters)

Course # 270 271 Credit .5 per semester Grades 8-12

Jazz Singers is for students who have an interest in singing both classical and contemporary music. This course covers current popular vocal music, classical styles, and a cappella type arrangements. The class is intended for group and solo performances, as well as a great way to build vocal knowledge for other classes such as drama. There are three (3) major concerts during the year, fall, Christmas and spring. There will also be performances during commencement and other exercises during the year. Opportunities are available for participation in District IX activities, and honors choirs. Self-discipline, cooperation, and musical awareness are emphasized.

Instrument Development (2 semesters)

Course # 254 Credit .5

This course offers individual and group instruction for voice and instruments. Course will encompass both individual and group projects and performances.

Foreign Language Department
(NCAA approved)

Spanish I (2 semesters)

Course # 460 461 Credit .5 per semester

A final grade of C or better in the previous years' Language Arts/English course. An introductory course for students with no background in Spanish at the high school level. Emphasis will be placed on the listening and the speaking of the language. The course will include basic vocabulary study, grammar, and verb forms in both written and oral practice. Learning Spanish is one method of understanding the Spanish-speaking people and a major objective of the course will be to cultivate an appreciation of the customs of the Hispanic culture besides developing the ability to speak, read, and write the language at the elementary level.

Spanish II (2 semesters)

Course # 464 465 Credit .5 per semester Grades 10-12 Prerequisite: Spanish I

This course is a continuation of Spanish I which resumes practice in the language skills acquired in the first level and emphasizes these special objectives: oral competence, development of reading skills the continuation of a formal study of grammar, progressive skills in writing, and the nurturing of cultural awareness.

Spanish III (2 semesters)

Course # 468 469 Credit .5 per semester Grades 10-12 Prerequisite: Spanish II

This is an elective course for students who have completed Spanish I and II and wish to continue their development of communication skills in the Spanish language. Review of Spanish II grammatical structures and selected additional material will be introduced. Emphasis is placed on enhancement of speaking and writing in Spanish. Students will explore current events and global issues of the Spanish speaking world.

Honors Spanish IV (2 semesters)

Course #474 475 Credit .5 per semester Grade 11-12 Prerequisite: Spanish III

This is an advanced course for students who have successfully completed Spanish III and wish to continue their pursuit of higher levels of Spanish study. It includes reading selected excerpts of Spanish and Latin American literature, the study of Latin American History, and continues to build fluency in speaking and writing. Recommended for students interested in applying to highly selective colleges.

Mathematics Department
Math Department Fee \$5.00

Transition to High School Math (2 semesters)

Course # 604 605 Credit .5 per semester Grades 9

Course designed specifically as intervention for students who enter grade 9 not ready for high school level mathematics courses. Use this code for courses that contain little of the high school level content found in the New Learning Standards for Mathematics.

(NCAA Approved)

CP Algebra I (2 semesters)

Course # 625 626 Credit .5 per semester Grades 9

This course provides students with all of the concepts needed to succeed in a first-year algebra course. Correlated to NCTM Standards and Ohio Standards, the content provides students of all abilities with essential preparation in problem solving, calculator usage, and application lessons that demonstrate how algebra is integrated within related content areas. Topics include solving equations and inequalities; linear functions; systems of equations and inequalities; polynomials and factoring; quadratic functions and equations; and rational expressions and functions. This course is intended for any student.

CP Geometry (2 semesters)

Course # 630 631 Credit .5 per semester Grades 9-10 Prerequisite: Successful completion of Algebra I

In this course, students go beyond the basics of geometry as they investigate the world of planes and solids. Students will explore parallel and perpendicular lines; triangles; quadrilaterals and polygons; right triangles and trigonometry; transformations; area and volume; circles; reasoning/logic and proofs. This course is intended for any student.

CP Algebra II (2 semesters)

Course # 635 636 Credit .5 per semester Grades 10-12 Prerequisite: Successful completion of Geometry

This course not only extends the ideas which were developed in Algebra I and Geometry, but also introduces new concepts such as the complex number system, exponential functions and equations, logarithms, and matrices. This course is intended for any student.

CCP or HS College Algebra (2 semesters)

Course # DEMATH2130A/B or MATH2130A/B Credit .5 per semester @ FFHS & 4 sem hrs @ WSCC Grades 11-12 Prerequisites: Completion of Algebra II Application-based course on functions and graphs, systems of linear equations, 3x3 determinants, factoring, quadratic equations and inequalities, exponents and radicals, and logarithms.

CCP or HS Precalculus (2 semesters)

Course # DEMATH2150A/B or MATH2150A/B Credit .5 per semester @ FFHS & 5 sem hrs @ WSCC Grades 11-12 Prerequisites: Completion of Algebra II with a B or higher

This course is intended for the student needing a solid mathematical background in order to take the AP Calculus AB. Topics to be covered include: functions, graphs of functions including polynomial, rational, all powers, as well as logarithmic and exponential functions, complex numbers and systems of equations and inequalities, operations on matrices, trigonometric definitions,, right and nonright angle trigonometry, trigonometric identities, law of sines and cosines, graphing trigonometric and inverse trigonometric functions, vectors, conics, and polar coordinates.

CCP or HS Principals of Statistics (1 semester)

Course # DEMATH2110 or MATH2110 Credit 1 @ FFHS & 3 sem hrs @ WSCC or .5 FFHS Grades 11-12 Prerequisites: Successful completion of Algebra II Introduction to the vocabulary, concepts, formulas, and presentation of statistics as applied to business and the sciences. This course focuses on measures of central tendencies and dispersion; probability; sampling practices and theory, and probability distributions with emphasis on binomial and normal distributions. Calculator usage will be incorporated into this course. Recommended for those seeking a Bachelors Degree.

CCP or HS Introduction to Calculus (1 semester)

Course # DEMATH2260 or MATH2260 Credit 1 @ FFHS & 3 sem hrs @ WSCC or .5 FFHS Grades 11-12 Prerequisite: Completion of or current enrollment in Precalculus

Math series is for general business, education, and technology majors. Survey of basic concepts of calculus. For students who want an introduction to calculus but do not need depth. Recommended for those seeking a Bachelor's Degree and recommended but not required for AP Calculus.

AP Calculus AB (2 semesters)

Course # 655 656 Credit .5 per semester Grade 12 Prerequisite: A grade of C or above in Precalculus. (Completion of Introduction to Calculus is highly recommended.)

This course is an extension of CP Intro to Calculus. Further exploration of the applications of the derivative and the integral will be included. The course is designed to prepare students for the Advanced Placement Calculus exam, which may award college credit. This course is recommended for students interested in applying to highly selective colleges. The College Board charges apx. \$90 for the Advanced Placement Exam, which may be taken at the end of the course.

Physical Education and Health Department

Health 10 (1 Semester)

Course # 551 Credit .5 Grade 10

Required for graduation, Health is aimed at arousing in the students awareness and an appreciation of the importance of good health as it relates to healthful living today and in the years to come. The course teaches the students to recognize the total self- the physical, emotional, mental, neuromuscular and social facet of one's personality and the inter-relationship of each to form the whole. The course also includes a chance for students to explore their feelings and fears on issues important to adolescent development.

Physical Ed. (1 semester)

Course # 8936G Credit .25 Grades 8-12

Required for graduation, two semesters of physical education must be completed. Phys. Ed. is designed to stress not only the physical aspects of sports, but also the educational elements involved. Instruction is given on the rules, scoring, and correct procedures and form to use when performing each sport. Skill tests are administered after each major sport unit. Good hygiene is stressed with particular emphasis placed on showering needs after activity and the use of body deodorants. Cleanliness also is stressed in keeping gym clothes and towels clean. Sport areas covered are archery, volleyball, basketball, flag football, soccer, badminton, gymnastics, tennis, track and field, floor hockey, and softball. Appropriate shorts, tee shirts, or sweats, white socks, and tennis shoes are the required dress for Phys. Ed. Class.

Advanced PE (2 semesters)

Course # 555 Credit: .25 credit but does not meet any graduation requirements Advanced PE or Sport Training is a course for high school students who wish to advance in body strength and conditioning for varsity sports or recreation. Weight training, cardiovascular endurance, speed and agility drills, and high tech skill workouts are used for those students working to improve their specialty sport. Although designed for the varsity athlete, all students in grades 9-12 may take the class. Discipline will be very strongly enforced.

Please note: If you have met your .5 PE credit for graduation this class will NOT add any additional credits toward Ohio or FFHS graduation requirements.

Science Department
(NCAA Approved)

CP Physical Science (2 semesters)

Course # 705 706 Credit .5 per semester Grade 9 Fee: \$20.00

This is a high school introductory-level course which satisfies the Ohio Core requirements. It introduces students to key concepts and theories that provide a foundation for further study in other sciences and advanced science disciplines. CP Physical science comprises the systemic study of the physical world, as related to chemistry, physics, and space science. Course content includes the study of the properties and reactions of matter; the study of motion, including kinematics and forces of nature; dynamics (Newton's laws); energy; waves; the universe, including stars and galaxies; and the origin of the universe. This is a laboratory-based course.

Honors Physical Science (2 semesters)

Course # 708 709 Credit .5 per semester Grade 9 Fee: \$20.00 Prerequisite for the course is co-enrollment in Geometry. Honors Physical Science is a foundation for other high school courses, especially chemistry and physics. Chemistry units include composition and classification of matter, history of atomic structure up to present day model, learning the periodic table to include, but not limited to: chemical symbols, patterns, trends and isotopes, chemical bonding, chemical isomers, chemical reactions acid and base reactions, together with basic nuclear chemistry. Physics units include Newton's laws of motion, forces, scientific definitions of work and power, momentum, conservation and conversions of energy, relationships between electricity and magnetism, wave phenomena and behavior including electromagnetic and sound waves. Because experimentation is the basis of science, laboratory demonstrations and investigations are an integral part of this course.

CP Biology (2 semesters)

Course # 715 716 Credit .5 per semester Grade 10 Fee: \$20.00 Prerequisite: Physical Science

This course is the study of living things and the life processes that are common to both plants and animals. The laboratory-based course covers topics from one-celled organisms through the most complex organisms focusing on their structures and related functions. Study will include structures and processes necessary for life; the basic workings of unicellular and multi cellular organisms; the living systems of plants and animals; ecological and evolutionary relationships between organisms and their environment and a concentration on genetics and reproduction.

Honors Biology (2 semesters)

Course # 718 719 Credit .5 per semester Grade 10 Fee: \$20.00 Pre-requisite for this course is co-enrollment in Algebra II Honors Biology is designed for the student with a strong interest in a science-related vocation. Investigation of topics in this course will include ecology, biochemistry, cells, photosynthesis and respiration, heredity, population genetics, DNA structure, gene expression, biotechnology and science as inquiry. The study of history of major discoveries

in Biology will facilitate the understanding and give insight into modern and future problems and solutions. Emphasis is placed on modern biotechnological and technical advances as applicable to medicine, food production and human wellness. Students will be able to apply knowledge gained in this course to their everyday lives, make informed choices as members of the community, as well as to further their career in medicine, engineering and other areas with a strong emphasis on science. This course will emphasize higher order thinking skills using online activities, laboratory investigations, independent research, collaborative learning activities, problem solving activities and bioethical discussions.

CP Chemistry (2 semesters)

Course # 735 736 Credit .5 per semester Grade 11-12 Fee: \$20.00

Prerequisites: Biology or teacher recommendation This course is concerned with the organization of chemistry, atomic structure, chemical formulas and equations, physical states of matter, solutions, equilibrium and kinetics, qualitative analysis, and radioactivity. Most colleges require Chemistry for unconditional admissions unless the student has taken Physics in its place. This is a laboratory-oriented course.

Honors Chemistry (2 semesters)

Course # 737 738 Credit .5 per semester Grade 11-12 Fee: \$20.00

Prerequisites: C or above in Biology and simultaneous enrollment in or have completed Algebra II

This course is designed for advanced students to gain a better understanding of the world of matter and energy. Topics include: the periodic table, properties of matter, conservation of atoms, kinetic molecular theory, acid-base reactions, solutions, energy, chemical reactions, chemical equilibrium, molecular bonding, organic and nuclear chemistry. Honors Chemistry applies additional quantitative chemical analysis and more in-depth study of the above topics than CP Chemistry. This is a lab-oriented course. It is highly recommended in preparation for most science and engineering careers.

Introduction to Forensic Science (2 semesters)

Course # 739 740 Credit .5 per semester Grade 11-12 Fee: \$30.00

Prerequisites: Physical Science and Biology The class is designed around authentic performance assessments with students working in teams to solve crimes using scientific knowledge and reasoning. It involves all areas of science including biology, anatomy, chemistry, physics, and earth science with an emphasis in complex reasoning and critical thinking. In addition, students must incorporate the use of technology, communication skills, language arts, art, family and consumer science, mathematics and social studies.

Honors Physics (2 semesters)

Course # 742 743 Credit .5 per semester Grade 12 Fee: \$20.00 Prerequisites: C or above in Chemistry and Algebra II. Simultaneous enrollment in or have completed Math Analysis

The student will study different kinds of forces of nature, particularly the kinds that cause motion. They will also study wave motion as applied to sound and

light. Electricity with special emphasis on simple direct and alternating currents will be covered. Physics is recommended for students planning on going to college, especially those planning on majoring in a math or science related area. This is a math based physics curriculum.

Honors Anatomy and Physiology (2 semesters)

Course # 745 746 Credit .5 per semester Grade 12 Fee: \$30.00 Prerequisites: C or above in Biology and Chemistry. This laboratory course is a study of the anatomy, physiology and pathology of the human body. Medical terminology will also be included in the course. This course is highly recommended for students entering a health-related or veterinary field of study.

Social Studies Department
(NCAA approved)

CP Social and World Studies (2 semesters)

Course # 830 831 Credit .5 per semester Grade 9

The survey course of Social and World Studies will appraise world events from the 18th Century to the present. Emphasis will be placed on analyzing the social, political, and economic effects on global events during this time periods. Explanation of connections between the Enlightenment and changes between the citizens and their governments will be reviewed. Identification of reasons countries gained control of territory through imperialism and the impact on their societies will be discussed. This course will reinforce major historical patterns on global affairs that affect the nations of the world from the 18th Century to the present. **Theme:** This course examines world events from 1600 to the present. It explores the impact of the democratic and industrial revolutions, the forces that led to world domination by European powers, the wars that changed empires, the ideas that lead to independence movements and the effects of global interdependence. The concepts of historical thinking introduced in earlier grades continue to build with students locating and analyzing primary and secondary sources from multiple perspectives to draw conclusions.

CP US Studies: 1877-Present (2 semesters)

Course # 827 828 Credit .5 per semester Grade 10

United States Studies analyzes the historical perspective of the Post-Civil War period and continuing to the present. It is designed to teach modern U. S. History while illustrating relationships with the past and possibilities for the future. A brief review of early U. S. History will begin the course. This course also appraises our American Heritage while utilizing historical, economic, social, governmental and geographic concepts, ideals, and principles. **Theme:** This course examines the history of the United States of America from 1877 to the present. The federal republic has withstood challenges to its national security and expanded the rights and roles of its citizens. The episodes of its past have shaped the nature of the country today and prepared it to attend to the challenges of tomorrow. Understanding how these events came to pass and their meaning for today's citizens is the purpose of this course. The concepts of historical thinking introduced in earlier grades continue to build with students locating and analyzing primary and secondary sources from multiple perspectives to draw conclusions.

CP American Government (2 semesters)

Course # 802 803 Credit .5 per semester Grade 11

How the American people govern themselves at national, state, and local levels of government is the basis for this course. Students can impact issues addressed by local governments through service learning, projects, and activities.

DE State and Local Government (1 semester)

Course # DEPOLS1030 Credit 1 @ FFHS & 3 sem. Hrs @ WSCC Grades 11-12
Survey of the structure and operation of state and local governments. Emphasis

on the relationship and interaction of state and local government subdivisions in Ohio.

CCP American History 1865+ (1 semester)

Course # DEHIST2120 Credit 1 @ FFHS & 3 sem hrs @ WSCC

Political, diplomatic, social, and economic development of America 1865 to Present. Topics include Reconstruction, the Industrial Revolution, the progressive movement, World Wars I and II, prosperity and depression, and problems of the Cold War era.

Social Studies Electives

(NCAA approved)

Honors History in Film (2 Semesters)

Course # 842 843 Credit .5 per semester Grades 11-12 Prerequisite: B or above in Social & World Studies and US History or teacher recommendation

History in film uses popular films to introduce and explore important political and historic events. This class will emphasize state standard topics while allowing students to examine a variety of views. Movies are complemented with readings, class discussion and written comparisons.

(Counts towards Diploma with Honors but not NCAA approved)

Current Events (1 Semester)

Course # 806 Credit .5 per semester

Current Events/Contemporary Problems is designed to provide the pupil with the opportunity to explore the broad spectrum of the various disciplines of social studies while placing special emphasis on current national and global issues. While focus is on the United States, this course will compare, analyze and appraise the world community. This course will encourage development of oral, written, reasoning, and analytical skills needed to discuss, compare, contrast and express facts and opinions on world events, social and contemporary problems, and current events.

Fort Frye History (2 Semester)

Course # 804 805 Credit .5 per semester Prerequisite

Fort Frye High School and District and local History. Concentration on research of teams, clubs, school items, athletic records, etc. Alumni interaction, social media connections to school, and hands on activities may be included.

Mock Trial (1 Semester)

Course # 820 Credit .5 per semester Grades 11-12 Sophomores may register with teacher approval. Prerequisite: Passed Proficiency and required social studies credits.

May be taken more than one year. The major instructional themes of this course are to develop an understanding of the American court system. Students will examine the background to contemporary jurisprudence from the Greeks and Romans to the present time. Focus will be on criminal justice and the areas of crime, police procedures, criminal trials, juvenile justice, and the causes and possible ways to reduce crime. Comprehensive work will also involve the

preparation of case materials in the form of interpretation of data and presentation in oral and written form. Study skills will involve critical thinking, interpretive reading, writing, speaking and debate. Students will become familiar with the workings of the court system, the Constitutions of the United States and the State of Ohio, and individuals' legal rights and responsibilities as therein defined. Students should have good reading, writing, and speaking skills. Particular focus will be on the Mock Trial Competition case. Class is limited to 24 students.

Yearbook Department

Yearbook (2 semesters)

Course # 180 Credit .5 per semester Grades 10-12 Prerequisite: Teacher recommendation

Students will learn all aspects of yearbook production, including photograph picture taking and development), layout design, copy writing, and financing. Class members will be responsible for planning, producing, and distributing the ***Cadettana***. Class size limited to 12 due to computer access.

Volunteer Opportunities

HS Teacher, Office, Library, Guidance, or Physical Education Aide

Course #TA1/2, OA1/2, LA1/2, GA1/2, PEA1/2 No Credit Grades 7-12

Prerequisite: 2.0 GPA in the immediately preceding 9 weeks and faculty approval. Upper level students must have passed all OGT/PARCC/AIR tests

This program is designed to allow teens to volunteer at FFHS as a high school or guidance office aide, an athletic director aide, a library aide, a phys. ed. aide or teacher aide. Many valuable skills including greeting the public, organizing and following directions, completion of tasks and accepting responsibility may be developed by volunteering in these capacities. Interested students may participate in this program in lieu of a study hall or depending on credit status, in addition to a study hall.

Teen Teaching

Course #TT1/ TT2 No Credit Grades 8-12 Prerequisite: 2.0 GPA in the immediately preceding 9 weeks and principal approval. Upper level students must have passed all OGT/PARCC/AIR tests

This program is designed to allow teens to explore the field of education. Students will be paired with a FF elementary teacher for one high school period a day for 1 or 2 semesters. Activities may include working in small groups with students, helping with class work, assisting with clerical work, displaying bulletin boards, supervising playground, or helping with art, music, or physical education. Interested students may participate in this program in lieu of a study hall or depending on credit status, in addition to a study hall.
