## FISCAL MANAGEMENT GOALS

The quantity and quality of learning programs are related to the funding provided and the effective, efficient management of those funds. It follows that the District's purposes can best be achieved through prudent fiscal management.

Due to resource limitations, there is sometimes a temptation to operate so that fiscal concerns overshadow the educational program. Recognizing this, it is essential that the Board take specific action to make certain that education remains central and that fiscal management contributes to the educational program. This concept is incorporated into Board operations and into all aspects of District management and operation.

As trustees of the community's investment in the facilities, materials and operational funds, the Board has a fiduciary responsibility to ensure that the investment is protected and used wisely. Competent personnel and efficient procedures are essential for sound management of fiscal affairs. The Board expects that the Superintendent and the Treasurer keep it informed through both oral and written reports on the fiscal management of the District.

With the assistance of the Superintendent/staff, the Treasurer is expected to develop an efficient and effective procedure for fiscal accounting, purchasing and the protection of plant, grounds, materials and equipment through prudent and economical operation, maintenance and insurance.

The Board seeks to achieve the following goals to:

1. engage in thorough advance planning, with staff and community involvement, in order to develop budgets and to guide expenditures to achieve the greatest educational returns for the dollars expended;
2. establish levels of funding that provide high quality education for the District's students;
3. use the best available techniques for budget development and management;
4. provide timely and appropriate information to all staff with fiscal management responsibilities and
5. establish effective procedures for accounting, reporting, business, purchasing and delivery, payroll, payment of vendors and contractors and all other areas of fiscal management.

ANNUAL BUDGET AND APPROPRIATIONS MEASURE/  
BUDGET MODIFICATION AUTHORITY

Budget

In lieu of the annual tax budget, the county budget commission requires the most recent five-year forecasts.

Appropriations

As permitted by law, at the start of the fiscal year, the Board may pass a temporary appropriations measure to provide for meeting the ordinary expenses of the District until such time as the Board approves the annual appropriations resolution for the year, which is not later than October 1. If by October 1 the county budget commission has not certified all amended certificates of estimated resources to the Board of Education (or submitted a certification that no amended certificates are necessary), the Board can delay action on the annual appropriation measure until such time as the certificates are received.

The Treasurer files both the temporary and final appropriations measures at the proper times with the office of the county auditor.

The Superintendent/designee notifies each school administrator and/or department head of the allocations approved for expenditure.

Budget Modification

Appropriations approved by the Board at the fund level may receive a line item increase as long as there is a corresponding decrease. Any increase in the amount of the appropriation measure or transfers of funds permitted by law from major fund to major fund require Board approval and may require approval from the Court of Common Pleas.

Transfers Among Categories

It is the responsibility of the Superintendent and the Treasurer to examine the appropriations categories and make the necessary recommendations to the Board.

BUDGET PLANNING  
(Five-Year Forecast)

Budget planning is an integral part of program planning so that the annual operating budget may effectively express and implement all programs and activities of the District. Budget planning is a year-round process involving broad participation by administrators, teachers and other personnel throughout the District.

The Superintendent and the Treasurer are responsible for preparing the five-year forecast for the Board's approval. The forecast is for the current fiscal year and four years beyond.

The five-year forecast is prepared twice a year and filed with the Ohio Department of Education. The initial filing is due on or before October 31 and an update by May 31. The five-year forecast is updated as often as necessary in order to communicate significant changes in the District's financial position.

## FUNDING PROPOSALS AND APPLICATIONS

The Board directs the Superintendent/designee to apply for any state or federal grants for which the District is eligible, at his/her discretion. The Superintendent/ designee evaluates federally funded programs and state grants, including their possible benefits to the students in the District, appraises the Board of the worth of each and makes recommendations accordingly.

The District participates to its limit of eligibility in the use of funds provided by the state for the educational benefit of its students.

## REVENUES FROM TAX SOURCES

In an attempt to provide sufficient financial resources, the Board:

1. requests that voters approve adequate local funds for the operation of the District and determines the amount of the individual levies at the time of the initial request, or at the time of a request for renewal or replacement, to yield sufficient revenue for the operating expenses of the District;
2. accepts available state funds to which the District is entitled by law or through regulations of the State Board of Education and
3. accepts federal funds, which are available, provided that there is a specific need for them and that the required matching funds are available.

## ADMINISTRATION OF FEDERAL GRANT FUNDS

The Board accepts federal funds, which are available, provided that there is a specific need for them and that the required matching funds are available. The Board intends to administer federal grant awards efficiently, effectively and in compliance with all requirements imposed by law, the awarding agency and the Ohio Department of Education (ODE) or other applicable pass-through entity.

The Board directs the Treasurer to develop, monitor, and enforce effective financial management systems and other internal controls over federal awards that provide reasonable assurances that the District is managing the awards in compliance with all requirements for federal grants and awards. Systems and controls must meet all requirements of Federal law and regulation, including the Uniform Guidance issued by the U.S. Office of Budget and Management and any applicable state requirements, and shall be based on best practices.

All individuals responsible for the administration of a federal grant or award shall be provided sufficient training to carry out their duties in accordance with all applicable requirements for the federal grant or award.

The financial management systems and internal controls must provide for:

1. identification of all federal funds received and expended and their program source;
2. accurate, current, and complete disclosure of financial data in accordance with federal requirements;
3. records sufficient to track the receipt and use of funds;
4. effective control and accountability over assets to assure they are used only for authorized purposes and
5. comparison of expenditures against budget.

In addition, written procedures must be established for cash management and for determining the allowability of costs, as required by the Uniform Guidance.

At a minimum, the financial management systems and internal controls will address the following areas:

1. Allowability

Costs charged by the school system to a federal grant must be allowed under the individual program and be in accordance with the cost principles established in the Uniform Guidance, including how charges made to the grant for personnel are to be determined. Costs will be charged to a federal grant only when the cost is:

- A. reasonable and necessary for the program;
- B. in compliance with applicable laws, regulations, and grant terms;
- C. allocable to the grant;
- D. adequately documented and
- E. consistent with District policies and procedures that apply to both federally-funded and non-federally funded activities.

Internal controls will be sufficient to provide reasonable assurance that charges to federal awards for personnel expenses are accurate, allowable, and properly allocated and documented. Controls will include time and effort reporting in accordance with Uniform Guidance and the requirements of ODE or other applicable pass-through entity.

2. Cash Management and Fund Control

Payment methods must be established in writing that minimize the time elapsed between the drawdown of federal funds and the disbursement of those funds. Standards for funds control and accountability must be met as required by the Uniform Guidance for advance payments and in accordance with the requirements of ODE or other applicable pass-through entity.

3. Procurement

All purchases for property and services made using federal funds must be conducted in accordance with all applicable Federal, State and local laws and regulations, the Uniform Guidance, and the District's written policies and procedures.

The District avoids situations that unnecessarily restrict competition and avoids acquisition of unnecessary or duplicative items. Individuals or organizations that develop or draft specifications, requirements, statements of work, and/or invitations for bids, requests for proposals, or invitations to negotiate, are excluded from competing for such purchases.

Contracts are awarded only to responsible contractors possessing the ability to perform successfully under the terms and conditions of a proposed procurement. Consideration is given to such matters as contractor integrity, compliance with public policy, record of past performance, and financial and technical resources. No contract is awarded to a contractor who is suspended or debarred from eligibility for participation in federal assistance programs or activities.

Purchasing records are sufficiently maintained to detail the history of all procurements and must include at least the rationale for the method of procurement, selection of contract type, and contractor selection or rejection; the basis for the contract price; and verification that the contractor is not suspended or debarred.

#### 4. Conflict of Interest and Mandatory Disclosures

The District complies with the requirements of State law and the Uniform Guidance for conflicts of interest and mandatory disclosures for all procurements with federal funds.

Each employee, Board member, or agent of the school system who is engaged in the selection, award, or administration of a contract supported by a federal grant or award and who has a potential conflict of interest must disclose that conflict in writing to the Treasurer. The Treasurer discloses in writing any potential conflict of interest to ODE or other applicable pass-through entity.

A conflict of interest would arise when the covered individual, any member of his/her immediate family, his/her partner, or an organization, which employs or is about to employ any of those parties has a financial or other interest in or receives a tangible personal benefit from a firm considered for a contract. A covered individual who is required to disclose a conflict will not participate in the selection, award, or administration of a contract supported by a federal grant or award.

Covered individuals will not solicit or accept any gratuities, favors, or items from a contractor or a party to a subcontractor for a federal grant or award. Violations of this rule are subject to disciplinary action.

The Treasurer discloses in writing to ODE or other applicable pass-through entity in a timely manner all violations of Federal criminal law involving fraud, bribery, or gratuities potentially affecting any federal award. The Treasurer fully addresses any such violations promptly and notifies the Board accordingly.

5. Equipment and Supplies Purchased with Federal Funds

Equipment and supplies acquired with federal funds will be used, managed, and disposed of in accordance with applicable state and federal requirements. Property records and inventory systems shall be sufficiently maintained to account for and track equipment that has been acquired with federal funds.

6. Accountability and Certifications

All fiscal transactions must be approved by the Treasurer/designee who can attest that the expenditure is allowable and approved under the federal program. The Treasurer submits all required certifications.

7. Monitoring and Reporting Performance

The Treasurer will establish sufficient oversight of the operations of federally supported activities to assure compliance with applicable federal requirements and to ensure that program objectives established by the awarding agency are being achieved. The District submits all reports as required by federal or state authorities.

## REVENUES FROM INVESTMENTS

### Scope

The Board directs that the investing authority of the District resides with its Treasurer. This policy is designed to cover all monies under the control of the Board.

### Objectives and Guidelines

The following investment objectives are applied in the management of the District's funds:

1. **Liquidity:** The investment portfolio remains sufficiently liquid to enable the Treasurer to meet reasonably anticipated operating requirements.
2. **Safety:** Investments are undertaken in a manner consistent with State Law, which seeks to ensure the preservation of public funds.
3. **Income:** The Treasurer strives to achieve a fair and safe rate of return on the investment portfolio over the course of budgetary and economic cycles, taking into account State law, safety considerations and cash flow requirements.
4. **Diversification:** The investment portfolio should be diversified in order to avoid incurring potential losses regarding individual securities that may not be held to maturity, whether by erosion of market value or change in market conditions.
5. **Prudence:** Investments are made with judgment and care – under circumstances then prevailing – which persons of prudence, discretion and intelligence exercise in the management of their own affairs, not for speculation, but for investment, considering the probable safety of their capital as well as the probable income to be derived.
6. **Bank Accounts:** Relationships with banks are managed in order to secure adequate services while minimizing costs. Deposits should be concentrated in single accounts except where audit control considerations dictate otherwise.

### Authorized Financial Institutions and Dealers

U.S. Treasury and agency securities purchased outright are made only through a member of the National Association of Securities Dealers, through a bank, savings bank or savings and loan association regulated by the Superintendent of Financial Institutions or through an institution regulated by the Comptroller of the Currency, Federal Deposit Insurance Corporation or board of governors of the Federal Reserve System.

1. Repurchase agreements are transacted through banks and/or eligible dealers consistent with State law.
2. Certificates of deposit are transacted through commercial banks or savings and loans with FDIC coverage, and qualify as eligible financial institutions under State law.

### Maturity

To the extent possible, the Treasurer attempts to match the District's investments with anticipated cash flow requirements. Unless matched to a specific cash flow requirement, the Treasurer will not directly invest in securities maturing more than five years from the date of purchase.

### Derivatives

Investments in derivatives are strictly prohibited. A derivative means a financial instrument or contract or obligation whose value or return is based upon or linked to another asset or index, or both, separate from the financial instrument, contract or obligation itself. Additionally, any security, obligation, trust account or instrument that is created from an obligation of a federal agency or instrumentality or is created from both is considered a derivative instrument.

### Allowable Investments

The Treasurer may invest in any instrument or security authorized in State law as amended. A copy of the appropriate section of the Ohio Revised Code is kept with this policy.

### Collateral

All deposits are collateralized pursuant to State law.

### Reporting

The Treasurer reports and maintains records of all investments and deposits.

All brokers, dealers and financial institutions initiating transactions with the investment authority by giving advice or executing transactions initiated by the investment authority must acknowledge their agreement to abide by the investment policy's content.

Internal Controls

The investing authority establishes a system of internal controls, which are documented in writing. The internal controls are reviewed periodically by an independent auditor. The controls are designed to prevent loss of public funds due to fraud, employee error and imprudent actions by employees and officers of the District.

AUTHORIZED SIGNATURES  
(Use of Facsimile Signatures)

The Treasurer's signature is used on checks, drafts, warrant-checks, vouchers and other orders on public funds deposited in designated depositories.

The Treasurer authorizes these designated depositories to honor any instrument bearing the Treasurer's facsimile signature in a form as he/she may designate and to charge the same to the account as fully as though it bore a manually written signature.

A facsimile signature includes, but is not limited to, the reproduction of any authorized signature by a copper plate or a photographic, photostatic or mechanical device. The Treasurer must notify the designated depositories, in writing, a description of the device used to produce the facsimile signature and a sample of the signature.

The Board purchases a surety bond to protect the loss of any public funds.

## FISCAL ACCOUNTING AND REPORTING

The District's accounting system is in conformance with the Uniform School Accounting System as prescribed by the Auditor of State for the use of school districts. Federal funds also are accounted for in conformance with the Uniform Guidance issued by the U.S. Office of Budget and Management and any applicable state requirements. The Treasurer is responsible for receiving and properly accounting for all funds of the District.

The financial records must be adequate to:

1. guide the making or deferring of purchases, the expansion or curtailing of programs and the controlling of expenses;
2. ensure that current data are immediately available and in such form that routine summaries can be readily made;
3. serve as a guide to budget estimates for future years and to hold expenditures to the amounts appropriated and
4. show that those in charge have handled funds within limitations established by law and in accordance with Board policy.

The Board receives monthly financial statements from the Treasurer, which show receipts, disbursements, appropriations, encumbrances and balances. The Treasurer makes all other financial reports required by law or by state or federal agencies and submits them to the proper authorities.

The Treasurer provides the Board with any other financial management reports that the Board determines necessary.

Financial records are permanent. the supporting documents may be destroyed only in compliance with the provisions of State law and in compliance with specifications of the District's records commission, the Auditor of State and the Ohio History Connection.

## INVENTORIES (Fixed Assets)

The Board, as steward of this District's property, recognizes that efficient management and full replacement upon loss requires accurate inventory and properly maintained property records.

The District conducts a complete inventory every five years, by physical count, of all District-owned equipment and supplies. For purposes of this policy, "equipment" means a unit of furniture or furnishings, an instrument, a machine, an apparatus or articles that retain shape and appearance with use, is nonexpendable and does not lose its identity when incorporated into a more complex unit. For purpose of items purchased with federal funds, equipment is defined as tangible, nonexpendable personal property having a useful life of more than one year with an acquisition cost of \$5,000 or more per unit.

This District maintains a fixed asset accounting system. The fixed asset system maintains sufficient information to permit:

1. preparation of year-end financial statements in accordance with generally accepted accounting principles;
2. adequate insurance coverage and
3. control and accountability.

Each building and additions to buildings are identified by location or name and are described in detail (e.g., size, number of floors, square footage, type of construction, etc.) with the value shown for all individual structures.

Fixed equipment is inventoried by building, floor and room name or number; each item is to be listed individually. (Leased equipment that the District will eventually own must be inventoried.)

Movable equipment is inventoried by building, floor and room name or number; each item is to be listed individually. Any item that has a model number or serial number has that number noted in the description for full identification. All items assigned to a building are the building administrator's responsibility.

All equipment purchased, after the initial inventory, as capital outlay or replacement with a cost of \$1,500 or more and with an estimated useful life of five years or more is tagged and made part of the equipment inventory. For fixed asset reporting purposes, all equipment in excess of \$2,500 is used. Property records and inventory systems are sufficiently maintained to account for and track equipment acquired with federal funds.

A listing of all equipment is maintained for each building and department. This listing is updated annually by the close of the school year, or not later than the second Friday in June of each year. This updated listing is then submitted to the Treasurer's office for audit purposes.

A physical inventory of supplies is taken at the building level at the close of the school year, or not later than the second Friday in June of each year. This updated listing is then submitted to the Treasurer's office for audit purposes.

The Treasurer is assisted by the principals, directors, supervisors and certified and classified staffs in the performance of this function.

## AUDITS

In accordance with State statutes, all District financial records are subject to audit by the Bureau of Inspection and Supervision of Public Offices of the Auditor of State's office. The Board has the right to request an independent audit with the approval of the Auditor of State's office.

A copy of the Auditor's report is placed on file in the Auditor of State's office; another copy is submitted to the Board. The Board makes the audit report available for public inspection.

## PURCHASING

The function of purchasing is to serve the educational program by providing the necessary supplies, equipment and services. The Board's authority for the purchase of materials, equipment, supplies and services is extended to the District administration through its adoption of the annual appropriations resolution.

The Board declares its intention to purchase competitively without prejudice and to seek maximum educational value for every dollar expended. The purchase of items and services found on lists from the appropriations resolution requires no further Board approval, except in those instances in which, by law or Board policy, the purchases or services must be put to bid.

The Board authorizes "open" purchase orders to be issued for generic supplies for up to three months and up to the \$5,000 limit. Open purchase orders will not extend beyond the current fiscal year.

An open purchase order for a "specific" permitted purpose, and in an amount not to exceed the line-item appropriation and fund, is authorized to the extent permitted by law. The permitted purpose list may include payment for accountants, architects, attorneys, construction project managers, consultants, engineers, fuel oil, gasoline, food items and utilities. The specific purpose purchase order may not extend beyond the current fiscal year.

The acquisition of supplies, equipment and services is centralized in the business office, which functions under the supervision of the purchasing agent through whose office all purchasing transactions are conducted.

The Board assigns to the purchasing agent the responsibility for the quality and quantity of purchases made. The Treasurer is charged with the responsibility to ensure that all purchases do not exceed appropriations and that they are consistent with the approved educational goals and programs of the District.

## PETTY CASH ACCOUNTS

The Board directs the Treasurer to create petty cash accounts allowing certain administrators to make purchases within the District. Money can be drawn from accounts by check or cash. The Treasurer designates who can use the accounts, the amount of money that may be placed in the accounts as well as the procedures and requirements for replenishing the accounts.

Account access is limited to only those individuals who have a job-related need to use these payment methods. Any person using the account must keep a written log, which is to be turned in each day.

Annually, the Treasurer establishes the amount of money to be placed in the accounts. The Treasurer's approval is needed to replenish the accounts. No major purchases may be made from the accounts.

Any administrator who ignores procedure and allows anyone else to use the account, or who does not take prudent measures to ensure that proper security is maintained, may be held personally liable for losses.

## BIDDING REQUIREMENTS

Contracts for construction or demolition of buildings or for any improvements or repairs that exceed \$50,000 are let only after bids are solicited and received in compliance with law. However, if the Board enters into a shared savings contract for energy conservation measures, competitive bidding is not required. The Board may also enter into an installment payment contract for the purchase and installation of energy conservation measures and competitive bidding does not need to be utilized if two-thirds of the entire Board adopts a resolution stating that competitive bidding does not apply to the project.

If feasible, all purchases over \$10,000 but under \$50,000 will be based on price quotations submitted by at least three vendors if feasible. These quotations are treated confidentially until the deadline for filing is past; thereafter, they are public information.

The Treasurer, with the assistance of the Superintendent/staff, assembles the proper specifications and makes the necessary arrangements for public bidding and price quotations. The Treasurer receives the bids and price quotations and records them. The Superintendent, with the assistance of the Treasurer/staff, makes his/her recommendations to the Board. Upon approval by the Board, the Treasurer processes purchase orders to those bidders awarded contracts and notifies the other bidders of the results of the bidding.

Purchases made through the use of federal funds are made in compliance with the requirements of State and Federal law, including the applicable bidding requirements.

## LOCAL PURCHASING

The Board recognizes its position as a major purchaser in this community and while it is the intention of the Board to purchase materials and supplies of quality at the lowest possible cost through widespread competition, if all other considerations are equal, the Board prefers to purchase within the District from established local merchants.

The Board authorizes the Treasurer and Superintendent to award purchases placed in accordance with law, this policy and all policies of the Board otherwise applicable to local merchants when their quotation is competitive, freight charges are a factor, maintenance service may be required, promptness of delivery is a consideration, provided that all statutes pertaining to public purchasing are duly observed.

[Adoption date: March 26, 2001]

[Re-adoption date: August 22, 2005]

[Re-adoption date: April 19, 2011]

[Re-adoption date: July 27, 2017]

## COOPERATIVE PURCHASING

The Board recognizes the advantages of centralized purchasing in that volume buying tends to maximize value for each dollar spent. The Board, therefore, encourages the administration to seek advantages in savings that may accrue to this District through joint agreements for the purchase of supplies, equipment or services with the governing body(s) of other governmental units.

The Board authorizes the Treasurer and Superintendent to negotiate such joint purchase agreements for services, supplies and equipment which may be determined to be required from time to time by the Board and which the Board may otherwise lawfully purchase for itself, with governmental contracting units as may be appropriate in accordance with State law, the policies of this Board and the dictates of sound purchasing procedures.

Cooperative or joint purchases require an agreement approved by the Board and the participating contracting body(s) which specifies the categories of equipment and supplies to be purchased; the manner of advertising for bids and of awarding contracts; the method of payment by each participating party and such other matters as may be deemed necessary to carry out the purposes of the agreement. Such agreements are subject to all legal bidding requirements.

## PURCHASING PROCEDURES

Monies under the jurisdiction of the Board may not be expended except upon a warrant drawn against a specific appropriation and against a specific fund. Therefore, no contract or purchase order for the expenditure of money will be made unless there is attached to it a certificate of the Treasurer certifying that the amount required to meet the contract or purchase order has been appropriated and is in the treasury, or is in the process of collection, and is free from previous encumbrance.

Any contract or purchase order issued without such a certificate attached is void, except as the law allows later issuance within 30 days of the certificate and except that, if the amount involved is less than \$3,000, the Treasurer may authorize it to be paid without the ratification or affirmation of the Board. Under certain conditions, the law also allows the Treasurer to issue blanket certification, subject to limitations of time and amount as set by law.

Purchasing procedures are designed to ensure the best possible price for the desired products and services. Procedures for purchasing are developed to require that all purchases are made on properly approved purchase orders and that, for items not put up for bid, price quotations are solicited.

Special arrangements may be made for ordering perishable and emergency supplies.

All purchases for property and services made using federal funds are conducted in accordance with all applicable Federal, State and local laws and regulations, the Uniform Guidance, and the District's written policies and procedures.

## PURCHASING PROCEDURES

### General

1. The Board designates the Superintendent and Treasurer as the purchasing agents.
2. No person may commit the District to a purchase without the appropriate certificate of the availability of funds.
3. The materials, equipment, supplies and/or services to be purchased are of the quality required to serve the function in a satisfactory manner, as determined by the requisitioner and the Superintendent.
4. It is the responsibility of the requisitioner to provide an adequate description of the item(s) purchased so that the purchasing agent may be able to prepare the specifications and to procure most expeditiously and economically the desired commodity and/or service. A source of supply should be included on requisitions for specialty or unusual items.
5. It is the responsibility of the Superintendent and/or Treasurer to make alternate suggestions to the requisitioner if, in the judgment of the Superintendent and/or Treasurer, the specification would restrict competition or otherwise preclude the most economical purchase of the required items. In the case of disagreement, either party may refer the matter in accordance with established procedure.
6. When a low bidder proposes an alternate as equal to that specified, it is the responsibility of the Superintendent and/or Treasurer to determine whether the proposed substitution is, in fact, an equal. Such decision is based on his/her evaluation and that of the requisitioner.

### Requisitions

1. The following are designated as “requisitioner”; that is, they are authorized to issue requisitions against stipulated segments of budgetary appropriations: the Superintendent, administrative assistants, directors, supervisors and building principals. Each requisitioner is responsible for limiting his/her requisitions to the appropriate amounts.
2. Only forms provided by the Treasurer are used for requisitioning.
3. Standard supply lists of commonly used items are jointly developed for all categories or groups of supplies by the Treasurer.

4. Items not specifically included on standard lists are requisitioned on the regular requisition forms.
5. The number of requisitions are kept to a minimum. They are submitted to conform with the purchasing schedule established by the Treasurer.
6. A requisition, to be considered appropriate for processing, meets the following requirements:
  - A. contains adequate information and
  - B. is approved by and bears the signature of an authorized requisitioner.
7. All approved requisitions are initially submitted to the Superintendent.
8. After a purchase order has been issued by the Treasurer's office, the number of the purchase order is recorded on the requisition.
9. After processing, the original copy of the requisition is filed in the office of the Treasurer.

#### Purchase Orders

1. Purchase orders are prepared by the appropriate person and at a minimum include the following essentials:
  - A. a specification that adequately describes to the supplier the characteristics and the quality standards of the item required;
  - B. a firm, quoted, net-delivered price, whenever possible (unit prices are shown);
  - C. clear delivery instructions, including place and time;
  - D. signature of the Superintendent;
  - E. appropriate account code number or appropriation code and
  - F. the Treasurer's certificate of available revenue and appropriation.
2. Purchase orders use an identifiable tracking system established by the District and contain the appropriate number of copies to meet District needs.

3. Verbal confirmation orders subject to subsequent confirmation by a written purchase order may be issued only in cases in which a bona fide emergency situation exists that can be handled only by this procedure:
  - A. whenever possible, a purchase order number should be given to the supplier and
  - B. a confirming requisition is issued immediately, marked “confirmation” indicating the purchase order number, if one was given.

## CREDIT CARDS

The Board recognizes the efficiency and convenience afforded the day-to-day operation of the District through the use of credit cards under the supervision of the Treasurer. However, credit cards are not to be used to circumvent the general purchasing procedures required by State law and Board policies.

The Board authorizes the use of credit cards in the following manner.

### Credit Cards

1. All credit cards issued to and in the name of the District shall be held and supervised by the Treasurer and used only for approved District-related activities.
2. Credit cards may be used for District-related transportation, reservations and expenses, conference registrations and hotel reservation guarantees for the Board and staff.
3. If monies are budgeted and deposited with the Treasurer in advance, credit cards may be used by school employees for student trips and competitions for safety and security reasons.
4. With prior approval of the Treasurer, credit cards may be used by school employees for school-related purchases.
5. Gratuities are permissible only when card use is for group purchases and the tip is automatically added to the bill.
6. The Treasurer keeps a record of all credit card use.
7. Receipts and appropriate form(s) are to be turned in with the credit card to the Treasurer within five business days upon completion of approved use. Failure to turn in receipts and appropriate form(s) to the Treasurer within five business days may result in the charges being deemed unrelated or unsubstantiated. The user is responsible for any unsubstantiated or unrelated purchases.

## CREDIT CARDS

Credit cards may be used for the following purposes.

1. School business travel, meetings, lodging and meals for out-of-District meetings or seminars are subject to the reimbursement limits established by the Board.
2. Gratuities are permissible only when card use is for group purchases and the tip is automatically added to the bill.
3. Purchases from vendors that require a credit card as form of payment do not supersede the requirement of preapproval of a purchase order for the purchase. The use of the credit card for electronic commerce must be preapproved by the submission of a purchase order prior to purchase.
4. The use of the credit card over the Internet must be safeguarded at all times. All vendors must be preapproved for use and must show sufficient proof of being a legitimate business entity. All purchases over the Internet are the sole responsibility of the Board's authorized buyer in the event of business fraud.
5. If the use of a tax-exempt form is not possible, the expenditure is allowed. The person using the credit card should take along the appropriate tax exemption form so that sales tax is not charged.

Upon returning from an approved business trip, an employee shall submit all original itemized invoices and original credit card charge receipts to the Treasurer's office. Credit card statements will not suffice as invoices. Credit card statements will be mailed directly to the Treasurer's office. Any late fees assessed to the District due to an employee failing to submit invoices and credit card receipts on a timely basis are the responsibility of the employee. Receipts for meals must include the names of all individuals for whom meals were provided and the purpose of the meeting.

The use of the credit card is prohibited for the following items:

1. purchase of personal goods or services for an administrator, an administrator's spouse, children or anyone employed or not employed by the Board and attending a District business function;
2. payment of any fines, penalties or personal liabilities incurred by the administrator or anyone else;
3. alcoholic beverages or tobacco;

4. fuel for use in a personal vehicle;
5. entertainment expenses, including pay-per-view movie charges and/or
6. cash advances.

Persons using a credit card for personal, nonauthorized purposes or undocumented expenditures shall be held personally responsible for those expenditures. Abuse of the credit card is subject to disciplinary procedures, including termination.

The use of a credit card does not supersede the required completion of a professional leave form when applicable. These procedures also dictate the reimbursement procedures of the Board.

(Approval date: July 27, 2017)

## PAYMENT PROCEDURES

All claims for payment from District funds are processed by the Treasurer. Payment is authorized against invoices and supporting documents verifying receipt, supported by approved purchase orders or in accordance with salaries and salary schedules approved by the Board.

As an operating procedure, the Board has adopted an annual resolution authorizing payment by the Treasurer for debts or claims. The Board receives a list of bills paid the previous month.

The Treasurer is responsible for ensuring that appropriate allocations are observed and that total expenditures do not exceed the amounts appropriated for all items.

DLB, Salary Deductions

## SALARY DEDUCTIONS

Except for deductions for absence not covered by paid leave or those required by law, salary deductions are allowed only upon authorization by the employee and approval by the Board.

The following deductions are required:

1. federal, state and local income tax;
2. employee's share of retirement contribution according to current rate as set by law;
3. unexcused or excused absence not covered by paid leave and
4. Medicare deduction in compliance with Federal law.

If requested by employees, the Board will implement payroll deductions for the Ohio Deferred Compensation Program. Other deductions are in accordance with negotiated agreements and/or Board policy.

The District may limit the right of an individual employee to designate the agent, broker or company to write tax-sheltered annuities by requiring designation by at least one percent of the District's full-time employees or at least five, whichever is greater, except that a District may not require that a company be designated by more than 50 employees.

When a teacher is absent from duty and there is no leave applicable, the absence is unauthorized. The salary deduction for each day of unauthorized absence is based on the current annual salary divided by the number of teacher workdays in the official school calendar as adopted by the Board. In no case will only the salary of the substitute be deducted or a teacher be allowed to employ and pay for the substitute.

When an employee is absent from duty and there is no leave applicable, the absence is unauthorized. The salary deduction for an unauthorized absence is made on a per diem basis in accordance with the required work year for that particular job classification.

Unauthorized absences are not condoned. Repeated unauthorized absences may result in the employee being disciplined.

## EXPENSE REIMBURSEMENTS

District personnel who incur expenses in carrying out their authorized duties are reimbursed by the District upon submission of a properly filled out and approved voucher with supporting receipts required by administrative regulations. Expenses may be approved and incurred within the limits of budgetary allocations for the specific type of expense.

When official travel by a personally owned vehicle is authorized, mileage payment is made at the rate currently approved by the Board and within the limitations of Federal law.

The Board prohibits employees and Board members from accepting, soliciting or using the authority or influence of his/her position to secure, for personal travel, a discounted or “frequent flyer” airline ticket or other benefit from an airline if he/she has obtained or earned the ticket on official travel. Any miles earned become the property of the District and must be used for future official travel by District employees or the Board.

A traveler on official school business is expected to exercise the same care in incurring expenses as a prudent person exercises in traveling on personal business. Excessive costs, such as those caused by circuitous routes or luxury services or accommodations, are not considered prudent, nor are they accepted for reimbursement.

## CASH IN SCHOOL BUILDINGS

Monies collected by employees and by student treasurers are handled with prudent business procedures, in order to demonstrate the ability of employees to operate in that fashion and to teach such procedures to our students.

State law requires a proper receipting and depositing of all public monies. Therefore, all monies collected are receipted, accounted for and deposited every day, if possible. Specifically, if the money collected:

1. exceeds \$1,000, it must be deposited on the next business day or placed in a safe or
2. does not exceed \$1,000, it must be deposited the next business day or placed in a safe place to be deposited within three business days.

No money shall be left overnight in school buildings. The Treasurer provides for making bank deposits after regular banking hours in order to avoid leaving money in a school building overnight.

## SCHOOL PROPERTIES DISPOSAL

The Board believes that the efficient administration of the District requires the disposition of property and goods no longer necessary for the maintenance of the educational program or the operation of the District.

The Board recognizes that most unused property of the District has value and that it may be practical to retain such property for a period of time. Once property is no longer needed for school purposes currently or in the future, it should be slated for disposal at the Superintendent's discretion. State law governs the retention and method of disposal of the Board's property. Property and goods purchased with federal funds also are subject to the disposal requirements outlined in the Uniform Guidance issued by the U.S. Office of Budget and Management. Therefore, the Board follows the procedures required by the various statutes governing the disposal of real or personal property.

The Board follows the procedures set forth in State and Federal law for the disposal of real or personal property at the minimum dollar value set forth in the statute on the date the Board decides to dispose of the property. The Board is required to offer its real property for sale to all community schools and college-preparatory boarding schools for the period of time set forth in law. High-performing community schools, as defined by State law, are given first priority. If a high-performing community school is not interested in buying the property, the Board will then proceed with offers to purchase from other start-up community schools operating in the District and college-preparatory boarding schools located within the territory of the District. If no community school or college-preparatory boarding school is interested in buying the property, the Board can sell its real or personal property at a public auction and follow specific statutory requirements if the property exceeds \$10,000 in value. If this amount is changed by the legislature, the Board and administration's responsibility changes automatically to reflect the new minimum statutory dollar value.

The Board directs the periodic review of all District property and authorizes the disposition by sale, donation, trade or discard of any property not required for school purposes.

The District complies with State law regarding the sale or lease of unused District property to high-performing community schools, community schools and college-preparatory boarding schools.

Disposal of Property Valued at Less Than the Dollar Value Set Forth in State Law

For the disposal of property that is not governed by Federal law, the Ohio Revised Code or administrative regulations, the administration is required to follow these procedures:

1. The Superintendent determines that the value of the property is less than the value set forth in State and Federal law when applicable. The property is valued pursuant to a reasonable method as determined by the Superintendent.
2. The Board is notified when real or personal property is no longer needed for school purposes and directs that the property be sold.
3. The Superintendent sells the property to a start-up community school or by bids, general sale, negotiated sale or by trade as determined by the Superintendent or the Board on an individual basis.
